Deployed link: <https://shahana-kabir.github.io/#/>

## Education

- Diploma in Web Development, BrainStation, April 2021
- M.Sc. in Electrical Engineering, University of Calgary, 2012
- B.Sc. in Electrical and Electronics Engineering, Bangladesh University of Engineering and Technology (BUET), 2007.

## **Experience**

### **Freelance Web Developer (Sep, 2020 - Current)**

- Developed frontend and backend features for various web apps using ReactJS, NodeJS, Express, HTML, Bootstrap, SCSS, etc.
- Worked in collaborative projects with couple of other developers using Scrum and Jira.
- Communicated with clients to understand, develop, and build features based on their requirements.

### **Kids cheerleader & a passionate learner(September, 2014 - September 2020)**

- Always believed 'a strong base in childhood can take you a long way'. I voluntarily spent some times with my two young kids watching them enjoy their blessed childhood.
- Besides spending time with my kids, continued learning and working on new software skills on a regular basis as this passion always keeps my sanity up.

### **Technical Sales Engineer, Allstream, Canada (Sep, 2012 - Sep, 2014)**

- Prepared business cases and financial analysis profiles for voice and data network products based on customer needs.
- Resolved customer support escalations for technical issues.
- Managed unified communications vendor relationship with Cisco.

### **Research Assistant, University of Calgary (Jan, 2010 - Apr, 2012)**

- Researched in the area of nano-technology.
- Designed, developed and tested a 130nm high frequency microchip.
- Published the research outcome in a renowned [journal](#).

### **System Engineer, Grameenphone Ltd. (Jun, 2007 - Aug, 2009)**

- Designed cellular network for voice and data traffic in a team of 12 to handle 10M mobile phone subscribers.
- Worked with partner teams to design redundancy and resilience for dealing with outage and traffic surge.
- Provided technical support and guidance for cellular network rollout and scaling.

## **Professional Certifications & trainings**

- Manifesto of Software Craftsmanship - LightHouse Labs, Calgary, 2020.
- Question based selling techniques for clients, Allstream, Toronto, 2012
- Cisco Sales Expert, CCENT
- Sales Engineer Bootcamp Training – Unified Communications sales techniques, Allstream, Toronto, 2012.
